Title IX professionals should be aware of the unique challenges posed by individuals with ASD involved in Title IX matters, as complainants and respondents.

17%

of young adults with autism enroll in a four-year college

11%

of college graduates are now neurodiverse

DIFFICULT TO DIAGNOSE - AND IS OFTEN MISSED

Understanding Sexuality & ASD: Considerations for College Students on the Spectrum

Adaptive functioning refers to the ability of a person to interact with the world and support oneself with or without supports

Individuals with ASD may have differential adaptive ability versus intellectual ability

An individual with ASD may be highly intelligent with poor adaptive functioning.

CHALLENGES FOR THOSE ON THE SPECTRUM

Understanding Sexuality & ASD: Considerations for College Students on the Spectrum

Sensory challenges - noise, smells, sounds

Communication -shame and embarrassment of disclosing a disability, expressing sexual needs

**Norms in public vs.
private spaces**

**Understanding non-verbal communication
and verbal nuances**

Dating and boundaries

Online issues

NETFLIX

MORE VULNERABLE TO VICTIMIZATION

Understanding Sexuality & ASD: Considerations for College Students on the Spectrum

35%

**of individuals with autism have
been the victim of a crime**

01

ASD individuals may be vulnerable to abuse and manipulation (may be naïve, may mimic others without realizing any issues in doing so, may not be able to tell if an intimate partner is lying or manipulating them, etc.)

02

ASD individuals may be victimized due to behavior perceived as antisocial

RESOURCES FOR STUDENTS

Understanding Sexuality & ASD: Considerations for College Students on the Spectrum

01

ASD individuals benefit from instruction from individuals specialized in teaching ASD students

02

ASD requires specific instruction on expectations of sexual behavior (informal social “rules,” as well as legal expectations) as well as the reasons why social rules exist in society

03

Repetition and review will assist in comprehension and internalizing of guidelines

Question:

**How many of you
have worked on Title
IX matters involving
students on the
autism spectrum?**

A young woman with curly hair, wearing a light blue hoodie, is looking down at a stack of books she is holding. She is in a school hallway with other students in the background, some blurred. The lighting is warm and indoor.

SPECIFIC CHALLENGES IN THE TITLE IX PROCESS

HEALTHY SELF ADVOCACY

Understanding Sexuality & ASD: Considerations for College Students on the Spectrum

01

Self-advocacy requires a student to communicate clearly and assert the student's interests, needs, and rights

02

Self-advocacy requires sharing of thoughts and feelings without exploding

03

How to support students? Considering allowing student advisors to take on a more active role in the advising process

A young woman with dark, curly hair is laughing heartily, looking towards the left. She is wearing a light blue button-down shirt over a pink top. In front of her is a brown paper coffee cup with a white lid. The background is slightly blurred, showing other people in a social setting.

**SEXUAL
NORMS ARE
EXCEEDINGLY
COMPLEX AND
LARGELY
UNSPOKEN.**

SCENARIO 1:

STALKING

SCENARIO 2:

HOUSING ISSUES

SCENARIO 3:

SEXUAL HARASSMENT

SCENARIO 4:

SEXUAL ASSAULT

SCENARIO 5:

CUSTOM PROGRAMS

SCENARIO 6:

VULNERABILITY WITH PROFESSORS

**BOTTOM LINE: A TYPICAL
TITLE IX PROCESS FAILS THE
NEURO-DIVERGENT**
